About

I am a Computer Engineering student (2021–2026) with hands-on experience in full-stack development and machine learning projects including anomaly detection and real-time computer vision systems.

Skills

- Java, Python, JavaScript, HTML, SQL
- MySQL, MongoDB
- AWS, Docker, Git
- Kafka, Hadoop, Pig

Projects

Sign Language to Speech Translator

- Built a real-time hand gesture recognition system using CNN and MediaPipe.
- Converted recognized signs into spoken output using text-to-speech.
- Implemented using Python, OpenCV and TensorFlow.

DWLR Anomaly Detection System

- Developed an LSTM-based model to detect anomalies in groundwater sensor data.
- Generated synthetic multi-city datasets with seasonal and monthly patterns.
- Detected abnormal water depth, temperature and battery behaviour.

Chess Game with AI Bot

- Created a two-player chess game with move validation and game status display.
- Implemented an AI opponent using Minimax with alpha-beta pruning.
- Developed the project using Python and Pygame.

Education

Qualification	Institute	Year / Result
B.Tech – Computer Engineering	Bajaj Institute of Technology, Wardha	2021–2026 (CGPA 6.2)
Class XII	Dr. Ambedkar College, Nagpur	93%
Class X	Bhavan’s Lloyds Vidya Niketan, Wardha	87.8%
